

## Thursday, October 5<sup>th</sup>

### 08:30h-10:30h Session 1: Hot topics in PAD: LINC @ SITE AUDITORIUM

Moderators: Sergi Bellmunt, Vicente Riambau

Panel: Bruno Migliara, Clàudia Riera, Gaspar Mestres, Sherif El-Kerdawy

- In-depth analysis of the literature: what is the right answer?
  - 1-BEST-CLI & BASIL-2: an endo first approach is best for treating most CLTI patients (or not) – 7 min. + discussion at the end of the presentation  
*Gonçalo Cabral*  
Discussion
  - 2-SUPERSURG RCT trial: open surgery is best for treating CFA (or not) – 7 min. + discussion at the end of the presentation  
*Koen Deloose*  
Discussion
  - 3- Forget PTX, Limus is the future of fem-pop treatment (or not) – 7 min. + discussion at the end of the presentation  
*Michael Lichtenberg*  
Discussion

Live poll
- How to deal with thrombus? Experience sharing of thrombectomy devices in PAD
  - 1- JETi system – 10 min. + discussion at the end of the session  
*Michael Lichtenberg*
  - 2- Angiojet system – 10 min. + discussion at the end of the session  
*Pablo del Canto*
  - 3- Rotarex/Aspirex system – 10 min. + discussion at the end of the session  
*Javier Río*

Live poll & discussion

Recorded Case 1 - Supported by Boston Scientific - 12 min. + discussion at the end of the presentation

Is it still possible to "leave nothing behind" when facing heavily calcified vessels? The JetStream system

*August Ysa*

### ***LIVE CASES TRANSMISSION (running in parallel to on-site sessions)***

Live case 1 - Supported by ShockWave Medical

*Performed by Marc Sirvent from Hospital Universitari General de Granollers, Barcelona (Spain)*

Live case 2

*Performed by Weiguo Fu, Zhong Shan Hospital, Medical College of Fudan University, Shanghai (China)*

**10:30h – 11:00 Coffee Break**

**11.00h – 11.45h EVAR Simulation Competition. Round 1.1**

**SEMINAR 4.2**

**11:00h - 12:00h Session 2: Top Secrets for PAD treatment. My choice**

**AUDITORIUM**

Moderators: Koen Deloose, Enrique Puras

Panel: Luis Loureiro, Lieven Maene, Michael Lichtenberg, Esaú Martínez

1-No fear of brachial access. When is my first option? – 7 min. + discussion at the end of the presentation

*Clàudia Riera*

Discussion

2-My algorithm to cross and the importance of selecting the right wire in each situation – 7 min. + discussion at the end of the presentation

*Lorenzo Patrone*

Discussion

3-How to avoid and how to treat the recoil? – 7 min. + discussion at the end of the presentation

*Marianne Brodmann*

Discussion

4-How to treat in-stent restenosis? – 7 min. + discussion at the end of the presentation

*Bruno Migliara*

Discussion

Live poll

### **LIVE CASES TRANSMISSION (running in parallel to on-site sessions)**

Live case 3 - Supported by Logimed

*Performed by Marc Sirvent from Hospital Universitari General de Granollers, Barcelona (Spain)*

Live case 4 - Supported by Balt

TBC

**12:00h - 13:00h Session 3: FYA@SITE. From nightmares to sweet dreams (or not).**

**Disaster cases**

**AUDITORIUM**

Moderators: Jorge Fernández-Noya, Germano Melissano

Panel: Gaspar Mestres, Pablo del Canto, Eric Ducasse, Javier Río

Disaster case – 15 min. + discussion at the end of the presentation

TBC

*Lorenzo Patrone*

Discussion

Disaster case – 15 min. + discussion at the end of the presentation

The only battle you lose is the one you abandon

*August Ysa*

Discussion

**13:00h - 13:30h Session 4: Sponsored symposium**

**AUDITORIUM**

Supported by iVascular

Iliac stenting approach, covered stents and BMS - 30 min.

Moderator: Vicente Riambau

1. Complex iliac treatment with a new generation covered stent- 15 min.

*August Ysa*

2. Is there still a role for BMS in the iliac artery? - 15 min.

*Lieven Maene*

**13:30h - 14:00h Lunch**

**14:00h - 15:30h Session 5: Free papers Vascular Nursing**

**AULA 14**

Moderators: Judith Prats, Elena Querol

1. Radial artery resection following catheter rupture: a case report – 7min. + discussion at the end of the presentation  
*Montserrat Periañez*
2. Compartment syndrome after acute arterial ischemia. The importance of the nursing role in early detection – 7min. + discussion at the end of the presentation  
*Montserrat Palacios*
3. Transcatheter Aortic Valve Implantation (TAVI) and repair of abdominal aortic aneurysm in the cardiac hemodynamics laboratory. Case report - 7min. + discussion at the end of the presentation  
*Endaitz Estébanez*

Live poll

**14:00h - 15:30h Session 6: Hot topics in PAD**

**AUDITORIUM**

Moderators: Eric Ducasse, Michael Lichtenberg

Panel: Bruno Migliara, Lieven Maene, Clàudia Riera, Gonçalo Cabral

- 1- Do BMS still have a role in F-P? - 7 min. + discussion at the end of the presentation  
*Koen Deloose*  
Discussion
- 2-What is the best endovascular therapy in infrapopliteal vessels? – 7 min. + discussion at the end of the presentation  
*Mariano Palena*  
Discussion
- 3- Should the plantar arch be our target? When and how? – 7 min. + discussion at the end of the presentation  
*Luis Loureiro*  
Discussion

4- Slow flow phenomenon after DCB: what is it and how important is this? – 7 min. + discussion at the end of the presentation

*Marta Lobato*

Discussion

5- Previous endovascular treatment affects future bypass: myth or fact? – 7 min. + discussion at the end of the presentation

*Marta Lobato*

Discussion

6- IVUS: from “no way” to “why not” – 7 min. + discussion at the end of the presentation

*August Ysa*

Discussion

Live poll

Recorded Case 2 - Supported by Lixel/Veryan- 12 min. + discussion at the end of the presentation

BioMimics 3D Vascular Stent System. Swirling flow and Biomechanical performance.

*Elena Herrero*

### ***LIVE CASES TRANSMISSION (running in parallel to on-site sessions)***

Live case 5 - Supported by Izasa/Cardionovum

*Performed by Mariano Palena from Policlinico Abano Terme (Italy)*

**15:30h – 17:30h Self-service tea and coffee station**

**15:30h - 16:00h Session 7: CiB1: Case in a box**

**AUDITORIUM**

Moderators: Pedro Amorim, Lieven Maene

Panel: Marta Lobato, Pablo del Canto

Recorded case 3 – Supported by Terumo - 12 min. + discussion at the end of the presentation

NaviTrack update

*Jorge Vilariño*

Discussion

Recorded case 4 – Supported by Terumo - 12 min. + discussion at the end of the presentation

Renzan pushing boundaries

*Marc Sirvent*

Discussion

### **15:30h - 16:00h Session 8: Posters presentation PAD**

#### **AULA 14**

Moderators: Enrique Puras, Gaspar Mestres

1. Femoro-popliteal stenting with Supera as a suitable alternative for glass stage III anatomies – 3min. + discussion at the end of the presentation  
*Andreia Pinelo*
2. Use of Angiojet TM dista thrombectomy system in infrapopliteal acute limb ischemia after EVAR – 3min. + discussion at the end of the presentation  
*Miquel Gil*

Live poll

### **16:00h - 16:45h Session 9: Controversies in PAD: Amputation epidemic**

#### **AUDITORIUM VIP@SITE**

Moderators: Nilo Mosquera, Franco Grego

Panel: Michelle Antonello, Sherif El-Kerdawy, Gonçalo Cabral, Clàudia Riera

- 1- Cost-effectiveness of endovascular treatment, open surgery and primary amputation in CLTI - 7 min. + discussion at the end of the session

*Marianne Brodmann*

- 2- No options patients: when deep venous arterialization and how to do it, when conservative treatment, when primary amputation? - 7 min. + discussion at the end of the session

*Bruno Migliara*

Live poll & discussion

### **16:30h - 18:00h W1- Vascular Nursing Workshop 1: Ultrasound-guided puncture WORKSHOP ROOM – SEMINAR 4.1**

Coordinator: Luis Barceló

Panel: Alicia Fernández, Maria Àngels Llauradó, Claudia Corral

**16:45h – 17:30h EVAR Simulation Competition. Round 1.2**  
**SEMINAR 4.2**

**16:45h - 17:30h Session 10: Tips & tricks in PAD therapy and diabetic foot**  
**AUDITORIUM**

Moderators: Lorenzo Patrone, Marc Sirvent

Panel: Louis Loureiro, Pedro Amorim, August Ysa, Lieven Maene

1- CO2: when to use it and how to optimize it? - 7 min. + discussion at the end of the presentation

*Mariano Palena*

Discussion

2- How to reduce major amputations in diabetics? Surgical offloading adjuvant techniques and minor surgeries - 7 min. + discussion at the end of the presentation

*Marc Sirvent*

Discussion

3- Septic foot: extreme limb salvage - 7 min. + discussion at the end of the presentation

*Clàudia Riera*

Discussion

Live poll

**17:30h - 18:30h Session 11: How do I do it? Vascular ART@ SITE**  
**AUDITORIUM**

Moderators: Mahmoud Salah, Jorge Fernández-Noya

Panel: Michael Lichtenberg, Gonçalo Cabral, Koen Deloose, Marc Sirvent

1- Management of aorto-iliac occlusion - 7 min. + discussion at the end of the presentation

*Pedro Amorim*

Discussion

2- How do I do it?: CERAB - 7 min. + discussion at the end of the presentation

*Alejandro Rodríguez Río*

Discussion

3- Vessel prep in fem-pop area- 7 min. + discussion at the end of the presentation

*Pablo del Canto*

Discussion

4- Management of popliteal occlusion - 7 min. + discussion at the end of the presentation

*Lieven Maene*

Discussion

5- Management of BTK occlusion- 7 min. + discussion at the end of the presentation

*Mahmoud Salah*

Discussion

Live poll

### **18:30h - 19:00h Session 12: Challenging cases in PAD**

#### **AULA 14**

Moderators: Enrique Puras, Xavier Yugueros

1. Retrograde femoropopliteal recanalization – when backwards is the way to go – 7min. + discussion at the end of the presentation

*Andreia Pinelo*

2. IVUS-guided totally percutaneous femoral-popliteal bypass (piper-bypass) – 7min. + discussion at the end of the presentation

*Giovanni Feriani*

3. Endovascular repair of aorto-iliac occlusion using a re-entry device (BeBack catheter) and the kissing stent technique

*Konstantinos Tzimkas-Dakis*

Live poll

### **18:30h - 19:15h Session 13: Vascular nursing: Fast track in lower limb revascularization**

#### **AUDITORIUM**

Moderators: Fátima Mato, Claudia Corral

Panel: Carla Blanco, M.<sup>a</sup> Teresa Espinosa, José Ramón March

1. Characteristics and results of the use of the Mynx Control system in lower limb revascularization – 7min. + discussion at the end of the presentation

*José Ramón March*

Discussion

\*\*\*\*\*

## Friday, October 6th

**08:00h – 09:30h Session 14: Top secret session, HTDI@SITE. Ascending and arch endorepair**

### AUDITORIUM

Moderators: Vicente Rimbau, Germano Melissano

Panel: Lauren Chiche, Mauro Gargiulo, Franco Grego

- 1- Endo-Bentall procedure – 7min. + discussion at the end of the session  
*Nikolaos Tsilimparis*
- 2- Total endovascular repair of the arch with branched endografts – 7min. + discussion at the end of the session  
*Michele Antonello*
- 3- Fenestrated endografts for arch pathology – 7min. + discussion at the end of the session  
*Fiona Rohlfes*
- 4- Physician-modified endograft in ruptured aortic arch – 7min. + discussion at the end of the session  
*Carlos Timaran*
- 5- Single branch repair for descending thoracic aorta preserving LSA. Initial experience and follow up – 7min. + discussion at the end of the session  
*Vicente Sala*

Live poll & discussion

Recorded case 1 – Supported by WLGOORE

GOORE® EXCLUDER® Conformable AAA Endoprosthesis utility in anterior-posterior angulation – 12 min. + discussion at the end of the presentation

*Vicente Sala*

Recorded case 2 – Supported by Terumo Aortic

Application of the Relay Triple Branch device for aortic arch aneurysm – 12 min. + discussion at the end of the presentation

*Piotr Szopinski*

### **LIVE CASES TRANSMISSION (running in parallel to on-site sessions)**

Live case 1

*Performed by Giovanni Pratesi from Università degli Studi di Genova (Italy)*

Live case 2 – Supported by Logimed

*Performed by Franciso Gómez from Peset University Hospital, Valencia (Spain)*

### **09:30h - 10:00h Session 15: PVI @ SITE Great debate: Ascending and arch repair AUDITORIUM**

Moderators: Nikolaos Tsilimparis, Eric Ducasse

Panel: Marina Dias-Neto, Ramiro Trillo, Manuel Alonso, Sergi Bellmunt

- 1- Endo should be the winner – 7min. + discussion at the end of the session  
*Michele Antonello*
  - 2- Open will remain the gold standard – 7min. + discussion at the end of the session  
*Laurent Chiche*
- Live poll & discussion

### **10:00h – 10:30h Coffee Break**

### **10.30h – 11.15h EVAR Simulation Competition. Round 2.1 SEMINAR 4.2**

### **10.30h - 11:30h Session 16: Hot Topics: Aortic dissection, New Frontiers @ SITE AUDITORIUM**

Moderators: Pedro Amorim, Vicente Riambau

Panel: Marina Dias-Neto, Laurent Chiche, Ángel Flores, Sherif El-Kerdawy

- 1- Acute type A aortic dissection: How do you approach today? – 7min. + discussion at the end of the session  
*Nikolaos Tsilimparis*
- 2- Acute and subacute type B dissection: When and how I the aortic septostomy technique – 7min. + discussion at the end of the session  
*Carlos Timaran*

- 3- When and how I use Stabilise technique – 7min. + discussion at the end of the session  
*Germano Melissano*
  
  - 4- Endovascular approach for chronic type B dissection: My most recent tips and tricks – 7min. + discussion at the end of the session  
*Bijan Modarai*
  
  - 5- Leave nothing behind – 7min. + discussion at the end of the session  
*Jordi Martorell*
- Live poll & discussion

Recorded case 3 – Supported by Cook  
How to optimize the patency of the visceral vessels in fenestrated endovascular repair – 12 min. + discussion at the end of the presentation  
*Sebastián Fernández*

### **11:30h -12:30h Session 17: Disaster cases, Critical Issues @ SITE AUDITORIUM**

Moderators: Mauro Gargiulo, Nilo Mosquera

Panel: Sherif Sultan, Gaspar Mestres, Javier Río, Jorge Fernández-Noya

Disaster case – 15 min. + discussion at the end of the presentation  
TEVAR misadventure - Giant Laser Fenestration to the rescue  
*Simon Neequaye*  
Discussion

Disaster case – 15 min. + discussion at the end of the presentation  
TBC  
*Fiona Rohlffs*  
Discussion

### **LIVE CASES TRANSMISSION (running in parallel to on-site sessions)**

Live case 3 – Supported by Logimed

*Performed by Jorge Fernández-Noya from University Hospital A Coruña (Spain)*

Live case 4 – Supported by Logimed

*Performed by Pablo del Canto from Cabueñes University Hospital, Gijón (Spain)*

**12:00h - 12:30h Session 18: Free papers in Aorta**

**AULA 14**

Moderators: Rosa Villardefrancos

1. Secondary adjunctive procedure in the interval before completing a two-stage b-EVAE for a pararenal abdominal aortic aneurysm – 7min. + discussion at the end of the presentation  
*Konstantinos Tzimkas-Dakis*
2. Type b thoraco-abdominal aortic dissection repair involving the left common iliac artery in Marfan syndrome: how to manage retrograde reperfusion – 7min. + discussion at the end of the presentation  
*Rocco Cangiano*
3. A b/FEVAR as treatment to manage CHEVAR-related complications – 7min. + discussion at the end of the presentation  
*Wilson Fabricio Barahona*

Live poll

**12:30h - 13:00h Session 19: Posters presentations Vascular Nursing**

**AULA 14**

Moderators: Patricia Santos, Judith Prats

1. Pelvic embolization, a guide for its instrumentation- 3min. + discussion at the end of the presentation  
*Olivia Toledo*
2. Tricuspid valvulopathy, the “forgotten” valve - 3min. + discussion at the end of the presentation  
*Iris Dueñas*
3. Emergency descending aortic replacement with esophagectomy for aorto-esophageal fistula - 3min. + discussion at the end of the presentation  
*Elena Querol*

Live poll

**12:30h - 14:00h Session 20: Radiation exposure reduction, LIVE @ SITE**

**AUDITORIUM**

Moderators: Athanasios Giannoukas, Miltiadis Matsagkas

Panel: Simon Neequaye, Marina Dias-Neto, Sara Lojo, Xavier Yugueros

- 1- Application of ESVS radiation safety guidelines in EVAR procedures – 7min. + discussion at the end of the session  
*Bijan Modarai*
  
- 2- Present and future adjuncts looking for a radiation-free endovascular repairs – 7min. + discussion at the end of the session  
*Fiona Rohlfss*
  
- 3- IVUS in my daily live – 7min. + discussion at the end of the session  
*Ángel Flores*
  
- 4- Update on robotics for EVAR/TEVAR procedures – 7min. + discussion at the end of the session  
*Celia Riga*

Live poll & discussion

Recorded case 4 - Supported by Cardiva

The benefit from Fenestrated TREQ graft and iCover bridging stent: a challenging FEVAR case – 12 min. + discussion at the end of the presentation

*Vicente Riambau*

Recorded case 5 – Supported by Cordis

Advantages of using INCRAFT system to treat ruptured abdominal aortic aneurysm – 12 min. + discussion at the end of the presentation

*Javier Río*

Recorded case 6 – Supported by Logimed

TBC – 12 min. + discussion at the end of the presentation

*Andrés Álvarez-Salgado*

Discussion

Recorded case 7 – Supported by Cook

Best practices to manage TAAA repair – 12 min. + discussion at the end of the presentation

*Rosa Villardefrancos*

Discussion

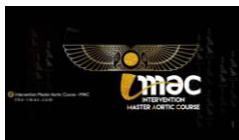

Recorded case 8 – Supported by Endospa  
NEXUS DUO the new double branch device – from features to clinical practice – 12 min. + discussion at the end of the presentation  
*Michele Antonello*

**14:00h - 14:30h Lunch**

**14:30h – 16:00h Session 21: iMAC @ SITE. The best endovascular approach for no infrarenal neck & thoracoabdominal pathologies**

**AUDITORIUM**

Moderators: Vicente Rimbau, Mohamed Hosni

Panel: Carlos Timaran, Manuel Hernando, Sherif El-Kerdawy, Miltiadis Matsagkas

1. Fenestration is outdated: off the shelf Branched therapy is the way to go – 7min. + discussion at the end of the session  
*Said Abisi*
2. Fenestration is outdated: branched therapy is the way to go – 7min. + discussion at the end of the session  
*Mauro Gargiulo*
3. Surgeons modified endografts can fill the gap 7min. + discussion at the end of the session  
*Nikolaos Tsilimparis*
4. Fenestration still the way to go: we even need new platforms 7min. + discussion at the end of the session  
*Carlos Timaran*
5. There is no good technique 7min. + discussion at the end of the session  
*Sherif Sultan*
6. Still any room for parallel grafts? 7min. + discussion at the end of the session  
*Jean Paul de Vries*
7. Spinal cord protection strategies 7min. + discussion at the end of the session  
*Rosa Villardefrancos*

Live poll & discussion

Recorded case 9– Supported by Cook

T-Branch - tips& tricks and no-do rules to success – 12 min. + discussion at the end of the presentation

*Francisco Gómez*

Recorded case 10 – Supported by Medtronic

A master ESAR case: tips and tricks – 12 min. + discussion at the end of the presentation

*Vicente Riambau*

### **15:30h - 16:00h Session 22: Posters presentation Aorta**

#### **AULA 14**

Moderators: Jacques Busquet, Sebastián Fernández

1. TEVAR with unusual access and complications in a patient with multiple vascular pathologies – 3min. + discussion at the end of the presentation  
*Rolf Dammrau*
2. Post-surgical management of complicated type B aortic dissection: everything is crucial for a successful outcome – 3min. + discussion at the end of the presentation  
*Clara Raventós*
3. Isolated intramural hematoma of superior mesenteric artery – 3min. + discussion at the end of the presentation  
*Marta Ascione*

Live poll

### **16:00h – 18:00h Self-service tea and coffee station**

### **16:00h – 17:00h Session 23: Innovation session**

#### **AUDITORIUM**

Moderators: Vicente Riambau, Montserrat Daban

Panel: Enric Roche, Jordi Martorell, Nikolaos Tsilimparis

- Presentation: BioCAT – 3 min.
- Innovation projects presentations:

1. NIMBLE: Creating a standard of care for patients with implanted stents – 7min. + discussion at the end of the presentation  
*Oriol Iborra*

2. INTARA or how to make angioplasty smart and great again (the MAGA project)  
– 7min. + discussion at the end of the presentation  
*David Martínez*

3. AneurEasy (Avoid missalignment in FEVAR) – 7min. + discussion at the end of the presentation  
*Ciro Baeza*

Live poll

1. AI and automated segmentation for evaluation of stroke risk with carotid lesion: a dream is starting - 7min. + discussion at the end of the presentation  
*Eric Ducasse*

## 16:00h - 18:00h W2 - Vascular Nursing Workshop 2: Negative pressure wound therapy (NPWT)

### WORKSHOP ROOM – SEMINAR 4.1

Coordinator: Sonia Riera

## 17:00h – 17:45h EVAR Simulation Competition. Round 2.2

### SEMINAR 4.2

## 17:00h - 18:00h Session 24: F/EVAR tips & tricks, SERVEI @ SITE

### AUDITORIUM

servei  
SOCIEDAD ESPAÑOLA  
DE RADIOLOGÍA  
VASCULAR  
E INTERVENCIONISTA

Moderators: Nilo Mosquera, Simon Neequaye

Panel: Celia Riga, Marina Dias-Neto, Federico Bastos-Gonçalves, Gaspar Mestres

1. Are all deflectable sheaths the same? My tips and tricks - 7min. + discussion at the end of the session  
*Sebastián Fernández*
2. 3D morphologic analysis of BECS post FEVAR accommodates a new classification for complications and guide reinterventions - 7min. + discussion at the end of the session  
*Jean Paul de Vries*
3. Next generation bridge stents. Do we need any specific technique to use them?  
- 7min. + discussion at the end of the session  
*Nikolaos Tsilimparis*
4. FEVAR in post dissection TAAA: when and how - 7min. + discussion at the end of the session  
*Giovanni Pratesi*

5. Diagnostic and treatment of post EVAR endoleaks - 7min. + discussion at the end of the session  
*Federico Zarco*
6. Facilitated access in complex endovascular procedures - 7min. + discussion at the end of the session  
*Alejandro Rodríguez Río*

Live poll & discussion

### **18:00h - 19:00h Session 25: HOT Topics in Aortic Therapy. New technologies AUDITORIUM**

Moderators: Eric Ducasse, Vicente Rimbau

Panel: Federico Bastos-Gonçalves, Piotr Szopinski, Celia Riga, Manuel Hernando

1. Advanced imaging technologies: advanced fusion - 7min. + discussion at the end of the session  
*Simon Neequaye*
2. Advance diagnostic technology - 7min. + discussion at the end of the session  
*Sara Lojo*
3. AI and endoleak detection and evaluation during AAA follow-up: it works nicely! - 7min. + discussion at the end of the session  
*Eric Ducasse*
4. Artificial intelligence and automated segmentation for AAA follow-up: the future is now! - 7min. + discussion at the end of the session  
*Eric Ducasse*
5. Artificial intelligence can predict risk of complications after endovascular aneurysm repair - 7min. + discussion at the end of the session  
*Juliette Raffort-Lareyre*
6. Colt 2.0 – a new device with inner branches for treating TAAA. Concept and early clinical results - 7min. + discussion at the end of the session  
*Piotr Szopinski*

Live poll & discussion

### **19:00h - 19:30h Session 26: Challenging cases in Aorta**

#### **AULA 14**

Moderators: Michelle Antonello, Franco Grego

Panel: Federico Bastos-Gonçalves

1. Custom made device with inner branches for type Ia endoleak treatment after failed CHEVAS– 7min. + discussion at the end of the presentation  
*Konstantinos Tzimkas-Dakis*
2. Hybrid approach for the treatment of type iii mega-aortic syndrome: may a stent-graft dislodgement compromise the entire procedure? – 7min. + discussion at the end of the presentation  
*Giulia Ongaro*
3. Tricky challenges in complex EVAR. Case report – 7min. + discussion at the end of the presentation  
*Amaia Echaide*

Live poll

### **19:00h - 19:45h Session 27: Vascular nursing: A flavour to SITEUpdate. Challenges for nursing in aortic team setup**

#### **AUDITORIUM**

Moderators: Mon Lago, Elena Querol

Panel: Vicente Riambau, Celia Riga

\*\*\*\*\*

## **Saturday, October 7th**

### **08:30h – 09:30h Session 28: Endovascular treatment of the acute deep vein thrombosis**

#### **AUDITORIUM**

Moderators: Enric Roche

Panel: Esaú Martínez, Luis Loureiro

1. Evidence on medical treatment of acute DVT - 7min. + discussion at the end of the session  
*Manel Monreal*
2. Are there evidenced indications for an endovascular treatment of an acute DVT - 7min. + discussion at the end of the session  
*Houman Jalaie*

3. Current and new tools to improve results. What we need - 7min. + discussion at the end of the session  
*Efthimios Avgerinos*

4. Limitations and opportunities. How to manage the paradigm shift - 7min. + discussion at the end of the session  
*Luis Izquierdo*

Live poll & discussion  
Moderator: *Marta Ramírez*

Recorded case 1– 7 min. + discussion at the end of the presentation  
Acute deep venous thrombosis from calf to iliac veins  
*Efthimios Avgerinos*

#### **09:30h - 10:00h Session 29: Free papers in Venous**

##### **AULA 14**

Moderators: Enric Roche, Juan Fontcuberta

1. Outcomes of pharmacomechanical thrombectomy devices in the treatment of venous thrombotic disease - 7min. + discussion at the end of the presentation  
*Mensur Koso*
2. Vena cava syndrome as first manifestation of lung cancer and its endovascular approach: case report - 7min. + discussion at the end of the presentation  
*Francisco Basilio*
3. Status of educational content on interventional venous procedures and diseases: A machine learning algorithm approach - 7min. + discussion at the end of the presentation  
*Mensur Koso*

Live poll

#### **09:30h – 11:15 Session 30: Endovascular treatment of deep chronic vein insufficiency and or post-thrombotic syndrome**

##### **AUDITORIUM**

Moderators: Enrique Puras

Panel: Luis Izquierdo, Marta Ramírez

1. What challenges do we face? What is the dimension of the problem? - 7min. + discussion at the end of the session  
*Esaú Martínez*

2. Medical and non-surgical management of deep CVI - 7min. + discussion at the end of the session  
*Sergi Bellmunt*
3. Pure endovascular approach to the problem - 7min. + discussion at the end of the session  
*Houman Jalaie*
4. Combined (open & endo) approach to the problem - 7min. + discussion at the end of the session  
*Houman Jalaie*
5. 36-month results of Medtronic's ABRE venous stent study. Durability is important - 7min. + discussion at the end of the session  
*Marta Ramírez*

Live poll & discussion  
Moderator: *Gemma Arnedo*

Recorded case  
TBC – 7 min. + discussion at the end of the presentation  
*Fernando Gallardo*

### **11:15h – 11:30h Coffee break**

### **11:30h - 12:00h Session 31: Posters presentation Venous AULA 14**

Moderators: Enrique Puras, Luis Loureiro
