Ana Alfonso-Piérola

University of Navarra, Pamplona, Spain

Dr Alfonso-Piérola is a consultant and deputy professor at the University of Navarra. She works in the Hematology Department at Clinica Universidad de Navarra, in Pamplona mainly dedicated to clinical trials and myeloid malignancies. She studied medicine at the University of Navarra, Pamplona, Spain, completed her residency training in haematology at the University Hospital of Navarra, and joined the Faculty of Medicine at the same institution in 2014. From 2015 until 2017, after completing her PhD, she undertook a postdoctoral fellowship in the Leukemia Department of MD Cancer Center in Houston, Texas (US), under the mentorship of Prof. Guillermo García Manero.

Dr Alfonso-Pierola's research interests include the management, treatment and biology of myeloid malignancies, mainly myelodysplastic neoplasms and acute myeloid leukemia. She has collaborated in more than 50 oncology/haematology clinical trials and several translational research projects.

Dr Ana Alfonso-Pierola has published articles in high-impact haematology journals and has presented at national and international congresses.
