Dr. María Calbacho

Hospital Universitario 12 de Octubre, Madrid, Spain

Dr. María Calbacho is a medical specialist in Hematology. She currently works in the Hematology Department of the Hospital Universitario 12 de Octubre where she is Head of the Clinical Section, combining clinical, management and research tasks.

Her clinical work is mainly focused on allogeneic stem cell transplantation and acute leukemias. She is a member of the Translational Research group and the Early Clinical Trials Unit in hematology at the Hospital 12 de Octubre. She is currently principal investigator in numerous clinical trials of national and international agencies for the study of new therapies for the treatment of relapsed or refractory acute leukemias and for the prevention and treatment of graft versus host disease after allogeneic transplant.
