Diana Lüftner

Immanuel Hospital Märkische Schweiz and Immanuel Campus
Rüdersdorf, Medical University of Brandenburg, Germany

Diana Lüftner is the director of the Immanuel Hospital Märkische Schweiz and in parallel associated with the Immanuel Campus Rüdersdorf of the Medical University of Brandenburg, Germany. She is a responsible physician at the Oncological Outpatient Department and is leading clinical trials, also as principal investigator. Prof. Lüftner's research interests include projects in all types of solid tumours, and in particular breast cancer at any stage of the disease and under all types of systemic therapy.
